

## READY 2 START

**New since 2020 !**

READY2START is made possible by special support from the Flemish Government and the European Union  
READY2START wants to ensure that more young people from the local area gain access to TECHNICS2START and COACH2START.

We're improving our communication to everyone in the neighbourhoods around the Canal and the Ninoofsepoort. We're heading out onto the street and into sports clubs, youth organisations, the squares where people gather and so on. We're also supporting local organisations. Together with others, we're ensuring that young people are properly prepared (through small-scale workshops in youth centres, meetings with former participants and other opportunities) and giving them appropriate co-support.

So are you READY... to start?

Curious? Then contact AHMED Belhadi.
